# How to Download Adobe PDF

We recommend using Adobe Acrobat Reader for accessing/editing our digital forms. This is a FREE program that has all the features to access, view, and edit your PDF.

See instructions below if using a desktop computer (PC or Mac)

1. Go to the following link to download your free copy of Adobe Acrobat Reader:
   https://get.adobe.com/reader/

2. Click "download Acrobat Reader DC" as shown in the screenshot below.

Note: On this page, Adobe is offering you two versions of the Acrobat software, one is free, and the 'Pro' version is a paid program. You do not need the paid version to access our PDFs..

3. Follow the prompts given to you on your computer to download the program.

We choose to use Adobe for its reliability, range of useful features, and because it is free to use and download. It is also the industry standard. If you would prefer to use another free .pdf reader, you may, however not all .pdf readers can utilize the attachments and layering required to view our PDFs. When selecting an alternative .pdf reader program, please consider one which has these features.

1. **Open the PDF document** in Adobe Acrobat.

2. **Fill out your form:** Complete form filling by clicking a text box field and type. Check mark boxes will automatically fill once selected.

Patient
Jane Doe|

Pan Number

Start typing in boxes

Case Number

FP1 (Crown & Bridge)

Checkbox will automatically fill once selected

✓

3. **Save your form:** After you have filled the PDF form, resave the PDF as "patient last name, RX"
